

# Personal Health Information Available in MyHealthNL

DECEMBER 2023

## WHAT PERSONAL HEALTH INFORMATION IS AVAILABLE IN MYHEALTHNL?

The following personal health information is available in MyHealthNL:

- ☑ **Laboratory Results**- Chemistry, Hematology, Microbiology, and Blood Bank
  - A new or amended lab result will be available in MyHealthNL **7 days after** it is released to the ordering provider.
  - Only final results will be viewable – not pending or cancelled results.
  - Some laboratory tests that were resulted before the launch of MyHealthNL will be available, while others will not. The inclusion date for historical results will vary depending on the region it was performed:
    - Eastern Health - May 1, 2015
    - Central Health - Sept 20, 2016
    - Western Health - June 6, 2017
    - Labrador Grenfell Health - Feb 5, 2018
  
- ☑ **Medical Imaging Reports** – General Radiology (X-ray) **Only**
  - A new or amended medical imaging report will be available in MyHealthNL **14 days** after it is released to the ordering provider.
  - Only final results will be viewable – not draft or cancelled reports.
  - Medical imaging reports that were signed prior to the initial launch of MyHealthNL on June 27, 2023, will not be available to view.
  
- ☑ **Medication Summary** – 2-year history of your dispensed medications from community pharmacies.
  - Medications dispensed during a hospital admission are not available.
  - Prescriptions that have not been dispensed are not available.
  
- ☑ **Allergy Information** – any allergies or adverse drug reactions that have been recorded by a community pharmacy.
  - Allergies or adverse drug reactions recorded during a hospital admission will not be available.
